

Office of the **TOWN MANAGER**
MICHAEL MANISCALCO, MPA
mmaniscalco@easthamptonct.gov

Questions:

I see that the town painted new white stop lines. Thank you. But, is it possible for Smith Street and Flanders Road to get new orange double lines in the middle as well. I am always moving over for oncoming traffic not staying in their lanes. Scary and dangerous. Might be a good move before the school year starts.

Answer:

The stop bars are painted by staff at Public works. The center lines on all roads require special equipment that the Town does not own. We have contracted with a company to complete the centerline striping this fall after all of the road construction is complete for the season.
