RE: Brownfields Inventory Update  
Village Center  
East Hampton, Connecticut

Dear Ms. Sylvester:

We are pleased to submit the enclosed Brownfield Inventory Update report for the above-referenced site. The Brownfields Inventory Update was conducted at the request of the Town of East Hampton and in accordance with the task authorization dated September 2, 2015.

Thank you for the opportunity to conduct this work. Please contact the undersigned if we can be of further assistance.

Sincerely,

Stefanie K. Wierszchalek  
Hydrogeologist

# 1 Introduction

Fuss & O'Neill, Inc. was retained by the Town of East Hampton (the Town), to conduct a Brownfields Inventory Update in the Town's "Village Center". The Village Center is comprised of a mix of residential, commercial and industrial parcels located to the south of the Pocotopaug Lake in East Hampton, Connecticut (Middlesex County). These properties include addresses along Main Street, Skinner Street, Summit Street, Barton Hill Road, Walnut Avenue and Watrous Street. A portion of two United States Geological Survey (USGS) topographic maps showing the subject site location is provided as *Figure 1*.

The US Environmental Protection Agency (EPA) awarded Brownfield Assessment and Cleanup Grants to the Town in 2003 and 2006, respectively. Since that time, the Town's Economic Development Commission created the Brownfields Redevelopment Agency to help "inventory, prioritize, assess, and, when possible, remediate environmental contamination in order to facilitate adaptive reuse and redevelopment in the Village Center."

As part of the Village Center Brownfields Initiative, an initial inventory and assessment of brownfield properties existing within the Village Center was conducted between 2005 and 2006, as discussed further in *Section 3*. The purpose of the 2015 Brownfield Inventory Update was to provide information regarding any changes to the previously identified brownfield parcels between 2005 and 2015; to identify any new or previously un-identified brownfield parcels within the Village Center; and to re-evaluate the properties brownfield status based on the current utilization of the parcels.

It is noted that any change in the brownfield status of a property within this inventory update is not an indication of environmental compliance with the applicable regulatory programs.

---

## 1.1 Brownfields Definition

According to the United States Environmental Protection Agency (EPA), a brownfield site, outlined in Public Law 107-118 (H.R.2869) – "Small Business Liability Relief and Brownfields Revitalization Act", is defined as:

*"real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant."*

The revitalization of brownfield properties has become an important issue for federal, state and local governments, as well as for potential developers; as the redevelopment of brownfield sites have both social and economic benefits as well as benefits to human health and the environment.

---

## 1.2 Scope of Services

Fuss & O'Neill's scope of services was developed based on a review of previously prepared environmental documents (dated between 2005 and 2006) in which 23 properties within the Village

Center were identified as potential brownfield sites. In general, the scope of services included a review of available information from select sources pertaining to each of the previously identified brownfields properties and a windshield survey of the Village Center to visually observe the properties and take current photographs where possible.

Specifically, this included a review of readily available documents from the following sources:

- Environmental Database Resources Inc. (EDR) "On Demand" databases report (provided by the Town) for the parcels within Village Center
- Town Departments (including the assessor's office, town clerk, building department, fire marshal's office and health department)

The information available from these sources (including building permits, renovation plans, building additions, and assessor's cards) were reviewed to identify any information that would indicate significant redevelopment, renovations, or changes in use at the previously identified Brownfields sites since they were originally identified in the inventory performed in 2005. The available information was also reviewed to identify any new (previously unidentified) potential brownfield sites within the Village Center. Additionally, town provided maps that documented the locations of available utilities and infrastructure available to the Village Center were also reviewed.

Please note that site-specific visits/reconnaissance beyond what is visible from publically available access points, and any determination of specific areas of concern and current quality of the subsurface materials (ie, soil, sediment and groundwater) were not conducted. A regulatory file review, other than information available through the EDR search, was also not performed.

## 2 Overview

---

### 2.1 History

East Hampton's Village Center was originally established in the mid 1700's and grew rapidly in the 1800s as an industrial hub known nationally for the manufacturing of bells. The first bell factory was constructed in 1808 and up to thirty manufacturers were known to have built and run bell factories in the town during that time period. To honor and preserve the town's industrial mill past, the Belltown Historic District (which is identified on the National Register of Historic Places) was established in 1985.

Specifically, the Belltown Historic District encompasses approximately 145-acres in the center of the Town of East Hampton, including the historic Village Center. Portions of the Village Center included within the Historic District are located along Main Street, Barton Hill Road, Skinner Street and Watrous Street, among others. While industrial activity within this area was concentrated along Summit Street, Bevin Boulevard and Bevin Court (located off Summit Street) and Watrous Street, more recently, several of the historic industrial and mill buildings were identified as underutilized and in disrepair.

---

## 2.2 Setting

The regional topography of the area generally slopes moderately to steeply from approximately 450 feet above sea level to approximately 360 feet above sea level (USGS, 1987) towards the Village Center (*Figure 1*).

Village Center is generally located in a topographical valley, sloping downwards toward the Pocotopaug Creek, which runs from Pocotopaug Lake through the middle of Village Center, eventually discharging to Pine Brook (a tributary of the Salmon River). Throughout the area's industrial past, this creek provided a source to generate electricity and industrial cooling waters among other uses. Over time, the natural location of this creek was altered by several iterations of damming and fill activities.

A portion of the former Air Line Railroad (which ran from New York City to Boston) bisects the Village Center in an east-west direction. The section of the railroad within East Hampton has been rehabilitated as a portion of the state's multi-purpose greenway trail identified as the "Air Line Trail". This trail provides public recreational opportunities in the heart of the Village Center and is another link to the Town's history.

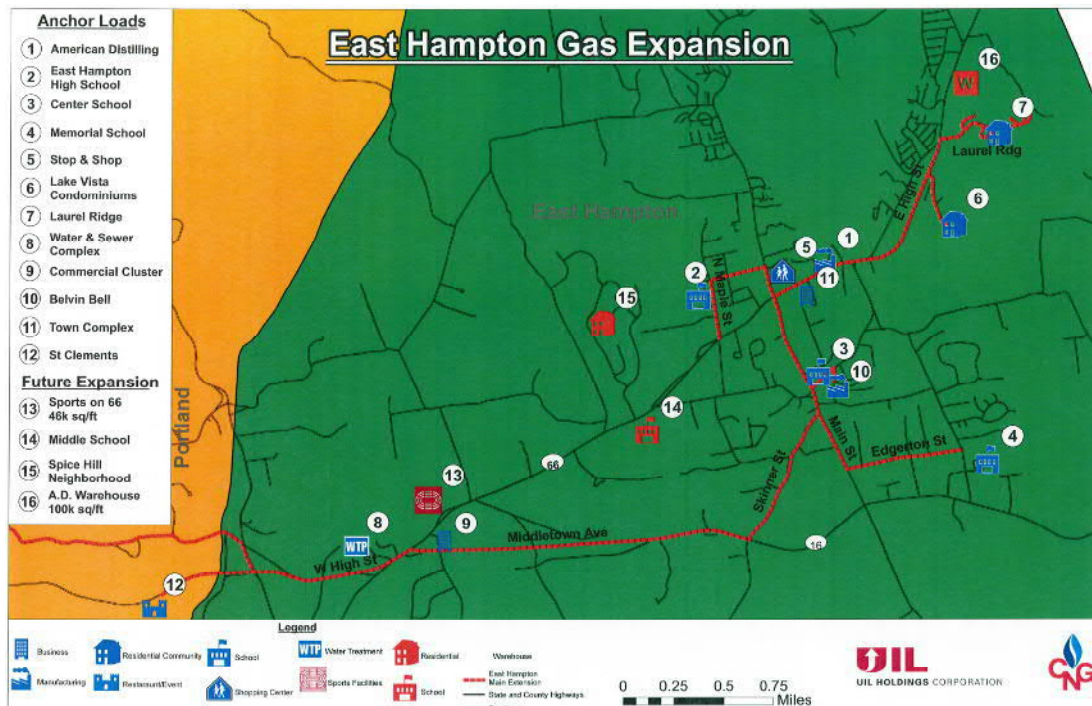

---

## 2.3 Existing Infrastructure & Utilities

The existing infrastructure and utilities available to the properties within the Village Center are discussed briefly below. Upgrades to these utilities are currently either being conducted or evaluated to ensure that adequate infrastructure is available to allow for the successful redevelopment and revitalization of the Village Center.

### 2.3.1 Natural Gas

Connecticut Natural Gas (CNG) maintains the gas utility within Village Center. Currently, the natural gas utility is available in Village Center along Main Street, Skinner Street, Summit Street (from Main to Watrous Street) and along approximately half of Watrous Street. The expansion of the natural gas utility throughout additional portions of East Hampton is currently an on-going project as depicted in the image below (not to scale).

### 2.3.2 Sanitary Sewer

The East Hampton Water Pollution Control Authority (WPCA) maintains the municipal sanitary sewer utility within the Village Center. The sanitary sewer mains, which run along Main Street, Skinner Street, Summit Street, Barton Hill Road, Walnut Avenue and Watrous Street throughout the Village Center, have been available in the area since approximately the late 1970s. Specifically, the sewer mains include a 30" reinforced concrete pipe (RCP) to a 30" diameter along Skinner Street; 24" diameter RCP main along Main Street to Summit Street, where it becomes an 18" RCP. A 12" diameter sewer main runs along Summit Street from Main Street to Watrous Street.

Based on the extended availability of this utility throughout the Village Center, the properties within this area are presumably all connected to the municipal sanitary sewer. This information could not be confirmed; however, within the scope of services identified herein.

### 2.3.3 Community Water System

Properties within the Village Center are primarily served by the Village Center Community Water System (CWS), which is owned and operated by the East Hampton WPCA. The CWS became operational in approximately August 1992 and is served from two potable wells located on the Center School parcel at 7 Summit Street. Based on the extensive history of industrial manufacturing operations within the Village Center, a water treatment and filtration system was installed in 1990, when the second well was installed, to ensure quality potable water is provided to the properties within the Village Center.

A Sensitive Receptor Survey Update was conducted in April 2009 for the properties located within a 500-foot radius of the property located at 13 Watrous Street and identified properties within the Village

Center that were connected to the CWS. The figure and table from this document summarizing the properties connected to the Community Water System are attached as *Appendix A*.

### 3 Village Center Brownfields Inventory Update

As part of the Village Center Brownfields Initiative in 2005 and 2006, Tighe & Bond, Inc. and TPA Design Group collaborated to prepare an *Environmental Site Overview* and *Village Center Revitalization Assessment*, respectively. The purpose of these documents was to provide a general overview of potential brownfield sites in the Village Center and include environmental data to be used in the site prioritization. While the Town Brownfields Steering Committee developed the initial list of potential brownfield sites within the Village Center, it was subsequently revised within these documents primarily based on a review of Town and State files. The final revised list included a total of 23 potential brownfield parcels within the Village Center; the majority of which had once operated as bell manufacturers, cotton and silk manufacturers, automotive repair facilities, toy manufacturers, dry cleaners and/or gas stations.

During the 2015 Brownfields Inventory Update, Fuss & O'Neill assessed the current conditions of these parcels and other properties within the Village Center to provide updated information regarding their status. The results of the file review did not identify new parcels that would qualify as additional Brownfield sites, other than those that were already previously identified. Refer to *Table 1* for a summary of the Brownfield parcels previously identified within Village Center and to *Figure 2* for their locations.

It is noted that this review was not conducted as an effort to determine the parcels' compliance with applicable regulatory programs; although several parcels were identified to be subject to State cleanup programs as summarized in *Table 2*.

---

#### 3.1 Significant Changes/Assessments Since 2005

Since the initial Brownfield Inventory was conducted, several environmental assessments (performed using both private funding sources and the federal EPA grant) have been conducted within the Village Center and several parcels within Village Center changed significantly through building demolition, redevelopment, renovations or reuse.

The general results of the environmental assessments that were reviewed as part of the brownfield inventory update are summarized per property on *Table 1*. Additionally, as part of the EPA grant expenditure, a 2015 Groundwater Quality Assessment was conducted to provide a preliminary screening level assessment of the existing groundwater conditions of the unconsolidated deposits aquifer within the Village Center. As part of this assessment, monitoring wells were installed (on town-owned parcels and right-of-ways) and groundwater samples were collected from the new monitoring wells and select existing wells on town-owned parcels. A general objective of this assessment was also to help identify if potential continuing sources of contamination to the unconsolidated deposits aquifer exists within the Village Center. Information obtained from this assessment have been incorporated into the general summaries of the pertinent properties from which samples were collected.

Parcels previously identified as abandoned or underutilized properties in the 2005/2006 assessments which have since had relatively significant changes or modifications are discussed below, while less significant changes to other parcels that have occurred since 2005 are described in *Table 1*. Note that determination of the compliance status with regard to environmental cleanup objectives for the parcels was beyond the scope of work for this document.

### Bevin Brothers Manufacturing - 10 Bevin Road/2 Bevin Boulevard

In May 2012, a fire destroyed the majority of the site buildings on the property. Documents reviewed in the Town's building department indicated that asbestos abatement and the demolition of all remaining structures was conducted in 2013. Post-demolition inspection notes, dated October 2013, indicated that a portion of one building was left based on the owner's plan to rebuild. In the meantime, the Bevin Brothers Manufacturing company is operating at a temporary address, 17 Watrous Street.

The parcel at 10 Bevin Road (also identified as 2 Bevin Boulevard) historically operated as the Bevin Brothers Bell Manufacturing facility since the 1880s, with the majority of its structures built in 1880, 1904-1910. Previous file reviews identified this parcel on the toxic release inventory system and as a large quantity generator of hazardous wastes. The historic use of trichloroethylene and perchloroethylene, as well as the presence of a 10,000-gallon underground storage tank was also noted on this property.

### Former Metal Allied Finishing - 10 Summit Street

The parcel at 10 Summit Street was formerly occupied by Allied Metal Finishing from 1983-the early 1990's; prior to which, it had various other Site occupants including manufacturing, a cable company and fishing equipment company dating back to approximately 1925. This property was vacant and underutilized since the early 1990's. Based on the industrial uses of this property in the past and the presence of underground petroleum storage tanks, this parcel was initially identified as having a "medium" environmental risk.

Since that time, this parcel was sold in 2012 and the land use zone was changed from industrial to commercial. The building was also significantly remodeled in 2012 using private funds and is currently operating as office space for a law firm and a yoga studio.

### Former Bell Town Cleaners & Laundry – 97 Main Street

The property at 97 Main Street historically operated as a bakery and a barber shop in the early 1900s. Subsequently, it operated as a residence and commercial businesses, including the Bell Town Cleaners & Laundry, a dry cleaning facility. This parcel remained vacant and in disrepair for several years.

The property card indicates the parcel was sold in 2014, the building gutted and remodeled, and has been operating as “Po’s Rice & Spice”, a popular Thai/Chinese restaurant, since that time.

### Former Gong Bell Manufacturing – 103 Main Street

Historically, this parcel was occupied by the former Gong Bell Manufacturing Company. The property also operated as a former paint shop and sheet metal manufacturing facility. The majority of the building was destroyed in controlled fire exercises in the late 1990’s with the exception of a small brick structure. Using EPA brownfields funding, a May 2005 Phase I Environmental Site Assessment (ESA) identified four potential areas of concern on the property which were investigated as part of a September 2005

Phase II ESA. The results of the Phase II ESA indicated that releases of petroleum and/or other hazardous substances had occurred at the property; therefore, a remedial investigation, soil remediation activities and a remedial action report were conducted between 2010 and 2011.

Site remediation activities conducted in 2011 included the demolition of the remaining structure, grading and relocation of contaminated soil on-site and the placement of an impermeable barrier below a layer of clean backfill material. The parcel was subsequently paved and redeveloped for use as a public parking lot. Post-remediation groundwater monitoring and an environmental land use restriction, which will prohibit the disturbance of subsurface materials, are currently pending. A groundwater sample was collected from this parcel, however, in April 2015 during Fuss & O'Neill's Groundwater Quality Assessment. This sample was analyzed for petroleum hydrocarbons and volatile organic compounds; none of which were detected above laboratory reporting limits.

### Former Water Tower Property – 3 Walnut Avenue

This parcel was historically the location of the East Hampton Bell Company (ca 1851) and was later occupied by a plastic manufacturer in the 1960s-1970s. In the 1980s, only a small pump house, water tower and two adjoining structures remained and the intent for the parcel was to provide fire suppression water to the adjacent Village Center industries. The buildings were used for commercial storage, however they were found to be in disrepair during environmental investigations conducted in 2006.

A Phase I ESA was conducted in 2006 followed by a Phase II ESA to investigate the areas of concern identified on the property. These investigations indicated that releases to the environment had occurred which resulted in the presence of elevated concentrations of petroleum hydrocarbons, VOCs and metals in soil and/or groundwater. The building structures and water tower have since been demolished using grant funding awarded by the Department of Economic and Community Development (DECD) and the property is currently a grassy lot bounded by the Pocotapaug Creek.

Recently, during Fuss & O'Neill's 2015 Groundwater Quality Assessment, a monitoring well was installed on this parcel near the Walnut Avenue boundary. Analytical results from an April 2015 groundwater sample identified trace concentrations of polycyclic aromatic hydrocarbons.

Additionally, it is noted that the long standing water tower formerly located on the property at 1 Watrous Street was recently removed in early 2015. Although no specific changes to the site building or general use of the property were identified, the removal of a blighted and structurally unsound water tower adds to the Town's efforts to revitalize the historic properties in the Village Center.

### 3.2 Properties Removed from Brownfield Inventory

Since the initial brownfield assessment was conducted, the inventory of underused, abandoned or vacant properties has been significantly reduced. During the 2015 Brownfield inventory update, in addition to the parcels discussed above, several properties that were initially identified as potential brownfield parcels were re-evaluated and removed from the brownfield inventory. These parcels and the rationale for their removal from the brownfield inventory include the following:

Address	Site Name	Rationale for Removal from Brownfield Inventory
5 Barton Hill Road	Train Station Motors	The property is fully utilized with a successful business operation.
85/85R Main Street	EMS Mailing	The property is fully utilized with a successful business operation.
90 Main Street	Former Restaurant	There is a new owner as of 2015; on-going site development is occurring.
100/102 Main Street	G&S Services	The property is fully utilized with a successful business operation.
115 Main Street	Former SNET	The property is owned and fully utilized by Frontier Communications.
21, 25 & 29 Skinner Street	Brookside Industrial Complex	Recent renovations and non-profit performing arts center; long standing landscaping business operation & overall appears generally utilized
26 Skinner Street	Lyon & Billard Company	The property is fully utilized with a successful construction business operation.
65 Skinner Street	Former Skinner Grist and Saw Mill	The property is fully utilized with a successful commercial business operation.
12-14 Summit Street	Nesci Enterprises	The property is fully utilized with several successful commercial business operations.
17 Watrous Street	Former J.C. Products	The property is currently occupied and utilized as the Bevin Bell Manufacturing facility.

The property located at 8 Summit Street was also removed from the original list of identified brownfield properties based on a review of available current and historical information, which did not identify significant environmental risks associated with the past residential uses of the property.

Additional information pertaining to the history of these parcels and a brief overview of the identified potential environmental concerns is provided in *Table 1*.

### 3.3 Remaining Brownfields Properties

Based on a review of the available information from the sources detailed in *Section 1.3*, the Village Center Brownfield inventory has been updated to include only the following 8 properties. Each of these parcels

were previously identified as brownfield properties during the 2005/2006 assessments, and specific information regarding the overall use or status of these properties is briefly discussed below.

- Former Bevin Bell Manufacturing - 10 Bevin Boulevard  
A May 2012 fire completely destroyed the site buildings on the property. Town records indicated that asbestos abatement and the demolition of all remaining structures was conducted in 2013. Although a portion of one building was left based on the owner's plan to rebuild, this property remains on the brownfield inventory, as it is current an underutilized, vacant parcel within the Village Center.
- GMA3 LLC – 101 Main Street  
This parcel historically operated as the Gong Bell manufacturing facility, but currently appears vacant or underutilized as warehouse storage. Town files indicated the property was in violation of East Hampton's blight ordinance in 2015, which refers to outdoor vehicle storage, rusting equipment and deteriorating structures.
- Former J.C. Barton Machine Shop – 11 Skinner Street  
This parcel was identified in the CT Hazardous Waste manifest in 2002 and 2007 as having generated 3,500 gallons of "environmental hazardous substance liquid" and 85 gallons of flammable liquids, respectively. This property was also previously identified in the State's UST database as having 3, 10,000-gallon gasoline USTs that were removed from the property. The site was also identified in the CT LUST database documenting a 2001 incident related to the removal of an underground storage tank.

Additionally, correspondences dated 2007 were on file at the Town's building department documenting that the parcel was connected to the Towns water supply; however was illegally supplying potable water to adjacent parcels (25-29 Skinner). Based on the correspondences reviewed, this matter appeared to result in legal action.

This property remains on the brownfield inventory based on the fact that it currently appears underutilized as a small machine shop operation.

- Former Summit Thread – 13 Summit Street  
Although select portions of the building on this property is available rental commercial space, this property remains on the brownfield inventory due to the fact it appears primarily vacant and underutilized.
- Former East Hampton Bell Company – 3 Walnut Avenue  
This property was partially investigated in 2006 using EPA grant funding and the vacant, decrepit buildings were demolished. This parcel remains on the brownfield inventory, however, as it is currently an under-utilized vacant parcel.
- Carpenter-Hayes Paper Box – 8 Walnut Avenue  
There are documented releases of petroleum on this property; however the current status of these releases is unclear. Additionally, the building is underutilized and in disrepair; therefore the parcel remains on the brownfield inventory.

- Former Clark & Watrous Company – 1 Watrous Street  
Although the former water tower structure was removed in early 2015, which shows progress on this parcel, this parcel has primarily been vacant, underutilized and in disrepair for several years.
- Former Ghezzi Motors – 13 Watrous Street  
Select environmental investigations and soil remediation activities have occurred on this property between 2005 and 2010. In 2014, the DECD awarded the Town a grant for the demolition of the building. Currently, the parcel is vacant and the exterior of the property remains fenced. Groundwater samples were collected from existing monitoring wells during the April 2015 Groundwater Quality Assessment. Analytical results indicated trace concentrations of polycyclic aromatic hydrocarbons in each well, and a concentration of trichloroethylene above state cleanup standards in one monitoring well.

Refer to *Figure 2* for the locations of these properties. Additional information for each property is also included on *Table 1* and within the property's individual Site fact sheet attached as *Appendix B*. The EDR "On-Demand" results for the Village Center, which have been incorporated into pertinent sections of this report, are attached as *Appendix C*.

## 4 Summary

The Town of East Hampton began its Brownfield Initiative in approximately 2003 to prioritize the assessment, redevelopment and revitalization of abandoned or underutilized properties within the Village Center. Through those efforts, a total of 23 Brownfield parcels were initially identified. Between 2003 and 2006, using federal assessment grants awarded by the EPA, the Town has begun evaluating and investigating those parcels.

Since that time, significant modifications, including reuse, demolition and new construction has occurred at five of the originally identified properties. These include:

- 10 Bevin Road/2 Bevin Boulevard
- 10 Summit Street
- 97 Main Street
- 103 Main Street
- 3 Walnut Avenue

Additionally, during the 2015 Brownfield inventory update, the current status of several properties originally identified as a potential brownfield were re-evaluated and ultimately removed from the brownfield inventory. These parcels, listed below, were primarily removed from the brownfield inventory list based on the fact that they were fully utilized with successful commercial business operations.

- 5 Barton Hill Road
- 85/85R Main Street
- 100/102 Main Street
- 115 Main Street
- 21, 25 & 29 Skinner Street
- 26 Skinner Street
- 65 Skinner Street
- 12-14 Summit Street
- 17 Watrous Street

In addition to those noted above, the property at 90 Main Street was also removed from the brownfield inventory list due to the fact that there is a new owner (as of 2015) and site development activities have recently been occurring.

Overall, it appears significant changes and progress has occurred to the previously underutilized, vacant or abandoned properties within the East Hampton Village Center since the initial Brownfields Initiative began; and only eight of the original 23 properties remain on the current Brownfield Inventory. The East Hampton Brownfield Redevelopment Agency continues to be available to all current and prospective property owners in the Village Center and is willing to assist in the regulatory, assessment and remediation of the properties through direct assistance or assistance in obtaining additional grant monies.

**Notes:**

***Bold italicized cells indicate properties that are serviced by public water.***

Well abandonment reports were verified to be on file at the East Hampton WPCA where indicated.

**The highlighted row indicates this is the subject property.**

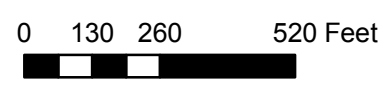

\*According to the East Hampton WPCA, the original well may still be in use as no abandonment permit was obtained. Additionally, the public water supply service was terminated at this location .

## Appendix B

---

### Site Fact Sheets

## Bevin Bros. Manufacturing (10 Bevin Road)

Site Photograph (circa 2005)

Aerial Photograph (circa 2014)

### General Property Information

**Tax Assessors Code:** 05A/62A/14F

**Acres:** 4.81

**Number of Structures:** 5 - Fire destroyed structures  
in 05/2012 (1 partial structure remains)

**Year Structure Built:** 1880 (burned in 2012)

**Total Square Feet:** 54,203 ft<sup>2</sup>

**Total Basement Area:** 0 ft<sup>2</sup>

**Owners Name:** Stanley R. Bevin

**Owners Address:** P. O. Box 60, 10 Bevin Road  
East Hampton, CT

**Current Use:** Vacant

**Historic Use:** Bevin Brothers Bell factory (~1880-2012)

#### Ownership/Sale History:

Date	Grantor	Grantee	Volume/Page
12/31/1974	Bevin, G.	Bevin, Stanley R.	122/392
09/30/1949	Bevin Bros. Mfg Co.	Bevin, Stanley A.	67/537-538
02/01/1904	Bevin, Avery A. & Chancey G.	Bevin Bros.	40/281

### Environmental Setting/Information

**Establishment Status:** Likely – Former RCRA generator, TRI facility

**Prior Environmental Site Assessment:** None Found - Town records searched 09/2015

## **Bevin Bros. Manufacturing (10 Bevin Road)**

**Topographic Quad Name:** Middle Haddam and Moodus

**Groundwater Class:** GAA – Well Impaired

**Bedrock Material:** Brimfield Schists - gray, rusty weathering, medium to coarse grained, interlayered schists & gneiss.

**Surficial Geologic Material :** Thin Till

**Nearest Surface Water:** Bevin Pond

**Distance to Nearest Surface Water:** >100 feet

**Spills/ Releases:** None listed as of 09/2015

**ASTs/USTs:** None registered with the state as of 09/2015; however, a 10,000-gallon buried oil tank is depicted on historical Sanborn maps

### **File Search:**

#### 2005

Bevin Brothers is listed on the Toxic Release Inventory System (TRI) for the reporting of copper. It was also formerly listed as a large quantity generator under the Resource Conservation and Recovery Information System (RCRA); however its status was changed to a conditionally exempt small quantity generator in 1996. CT DEEP file review noted the historic use of trichloroethylene and perchlorethylene on site.

#### 2015

A May 2012 fire destroyed the majority of the Site's buildings. Town building department files indicate that a demolition permit was obtained in July 2013 and the demolition of remaining portions of the structures occurred. Asbestos abatement also occurred at this time. A portion of one of the structures was left due to the owners plan to rebuild.

No additional information was provided in the EDR database report aside from OSHA inspection/violation listings between 2007 and 2012. P.S.I. Plus Inc., a manufacturer of high pressure gas cylinders was also identified as a former tenant at 10 Bevin Road, prior to the 2012 fire.

### **Site Visit Comments:**

#### 2005

A narrow and unpaved access road, known as Bevin Road, extends off of Bevin Boulevard and leads to the site. The road runs behind the property at 13 Summit Street. Bevin Road runs parallel to Summit Street in a northeastern direction.

#### 2015

A Site visit was not conducted; however a 2015 windshield survey confirmed that the Site buildings have been demolished with the exception of a small portion of one structure.

## Former Clark and Watrous Company (1 Watrous Street)

Site Photograph (Circa 2005)

Site Photograph (September 2015)

### General Property Information

**Tax Assessors Code:** 06A/59/12A

**Acres:** 0.51

**Number of Structures:** 5

**Year Structure Built:** 1927

**Total Square Feet:** 10,627 ft<sup>2</sup>

**Total Basement Area:** 0 ft<sup>2</sup>

**Owners Name:** Yenwod Realty LLC

**Owners Address:** 164 Knollwood Drive  
Glastonbury, CT

**Current Use:** Appears to be Vacant Industrial Space  
(Property in foreclosure circa 2014)

**Historic Use:** Merrick & Conanat Silk Factory, Summit  
Thread, electric manufacturing, auto repair, wood  
cabinet construction/repair, furniture repair/refinishing

#### Ownership/Sale History:

Date	Grantor	Grantee	Volume/Page
06/04/2007	Erbe, Keith	Yenwod Realty LLC	462/48
12/11/2001	Erbest LLC	Erbe, Keith	341/509
02/12/1998	Axelrod, Jack	Erbest LLC	295/774
05/26/1976	Smetaniuk, N & M	Barton, J C Jr.	264/289
11/30/1943	Planeta, R	Planeta Realty	63/297-299
01/24/1941	Sawyer Displays Inc.	Planeta, R	58A/399-402
01/24/1941	Sawyer, D	Sawyer Displays Inc.	58A/399-402

### Environmental Setting/Information

**Establishment Status:** Likely – potential furniture stripping

**Prior Environmental Site Assessment:** None Found - Town records searched 09/2015

## Former Clark and Watrous Company (1 Watrous Street)

**Topographic Quad Name:** Middle Haddam and Moodus

**Groundwater Class:** GA – Impaired

**Bedrock Material:** Brimfield Schists - gray, rusty weathering, medium to coarse grained, interlayered schists & gneiss.

**Surficial Geologic Material :** Thin Till

**Nearest Surface Water:** Pocotopaug Creek

**Distance to Nearest Surface Water:** >100 feet

**Spills/ Releases:** A release of 100-gallons of No. 2 fuel oil occurred (1998-2001, exact date could not be confirmed)

**ASTs/USTs:** None registered with the state as of 09/2015

### File Search:

2005

The former location of Starr Brothers Manufacturing. A documented spill of No. 2 fuel oil occurred on site. Former RCRA large/small quantity generator.

2015

Building department files between 2005 and 2015 refer to violation with regards to vehicle storage and “illegal junkyards”. In 2013 the owner failed to notify the town about blighted conditions on the Site, including dilapidated buildings, fire and safety hazards, and interference with abutting premises. In 2015, the on Site water tower was characterized as an “unsafe” and “dangerous” structure and was subsequently removed.

### Site Visit Comments:

2005

The property presents significant accessibility issues. The driveway leading on the property is unpaved and very limited parking is available. Watrous Street and Summit Street are the only roads that access the property. A large water tower that connects to the building is located at the base of Watrous Street and Summit Street.

2015

A site visit was not conducted. The 2015 windshield survey confirmed that the water tower structure has been removed. No other significant changes were observed.

## GMA3 LLC (101 Main Street)

Site Photograph (circa 2005)

Site Photograph (September 2015)

## General Property Information

**Tax Assessors Code:** 06A/57/2

**Acres:** 2.52

**Number of Structures:** 2

**Year Structure Built:** 1900

**Total Square Feet:** 17,665 ft<sup>2</sup>

**Total Basement Area:** 0 ft<sup>2</sup>

**Owners Name:** GMA3 LLC

**Owners Address:** P.O. Box 718  
Colchester, CT

**Current Use:** Vacant, warehouse

**Historic Use:** Gong Bell manufacturing, bell  
manufacturing

### Ownership/Sale History:

Date	Grantor	Grantee	Volume/Page
10/23/2003	Einhorn, Sumner & Sheila	GMA3 LLC	390/997
04/04/1985	Unknown	Einhorn, Sumner & Sheila	182/64
01/20/1983	Barba	Villa	162/257
10/04/1979	Borruso	Barba	146/554
09/19/1972	Ramondetta	Barba	111/304
02/09/1971	Newconn Corp	Barba, Borruso, & S&J Ramondetta	103/56

## Environmental Setting/Information

**Establishment Status:** Likely

**Prior Environmental Site Assessment:** None Found - Town records searched 09/2015

## **GMA3 LLC (101 Main Street)**

**Topographic Quad Name:** Middle Haddam

**Groundwater Class:** GA- Impaired

**Bedrock Material:** Brimfield Schists - gray, rusty weathering, medium to coarse grained, interlayered schists & gneiss.

**Surficial Geologic Material :** Thin Till

**Nearest Surface Water:** Pocotopaug Creek

**Distance to Nearest Surface Water:** >100 feet

**Spills/ Releases:** None listed as of 09/2015

**ASTs/USTs:** None registered with the state as of 09/2015; however a 50-gallon gasoline tank was indicated on historic Sanborn maps

### **File Search:**

2005

No additional information found.

2015

Building department files indicate that the Site was in violation of East Hampton's Blight Ordinance in 2015. This specifically refers to outdoor vehicle storage, rusting equipment and deteriorating structures.

### **Site Visit Comments:**

2005

Main Street is the primary access point to the property, though the site can also be accessed by way of Skinner Street (CT-Rte. 196). The site is located adjacent to a watercourse known as Pocotopaug Creek, running parallel to CT-RTE. 196. The building on the premises is a large, one-floor complex.

2015

A site visit was not conducted. No significant changes were observed during a 2015 windshield survey.

## Carpenter-Hayes Paper Box (8 Walnut Avenue)

Site Photograph (circa 2005)

Site Photograph (September 2015)

### General Property Information

**Tax Assessors Code:** 06A/57/2A

**Acres:** 1.09

**Number of Structures:** 5

**Year Structure Built:** 1875

**Total Square Feet:** 26,570 ft<sup>2</sup>

**Total Basement Area:** 0 ft<sup>2</sup>

**Owners Name:** Russo, Susan (60%) and Mellen, Jason (40%)

**Owners Address:** 245 Blood Street  
Lyme, CT

**Current Use:** Cardboard box, packaging pouches, egg trays & packaging trays manufacturing

**Historic Use:** Gong Bell Manufacturing, paper box & rubber stamp making, box painting

#### Ownership/Sale History:

### Environmental Setting/Information

**Establishment Status:** Likely – Former Large Quantity generator, potential auto body repair

**Prior Environmental Site Assessment:** None Found - Town records searched 09/2015

## **Carpenter-Hayes Paper Box (8 Walnut Avenue)**

**Topographic Quad Name:** Middle Haddam and Moodus

**Groundwater Class:** GA – Impaired

**Bedrock Material:** Brimfield Schists - gray, rusty weathering, medium to coarse grained, interlayered schists & gneiss.

**Surficial Geologic Material :** Thin Till

**Nearest Surface Water:** Pocotopaug Creek

**Distance to Nearest Surface Water:** >100 feet

**Spills/ Releases:** A release of approximately 500-gallons of heating oil occurred in 1988 and an oil substance was subsequently found in a 9 foot dug well (2001)

**ASTs/USTs:** None registered with the state as of 09/2015; however a 50-gallon gasoline tank was indicated on historic Sanborn Maps

### **File Search:**

2005

Documented solvent use at the Carpenter-Hayes facility. A spill of heating oil (~500 gallons) was documented on site.

2015

Building department files indicate that the building was vacant in 2001. In 2008, the Town of East Hampton instructed the Site to stop automotive repair work on the Site. Between 2011 and 2012 the owner was instructed to take corrective action after the roof collapsed in two sections of the building. The structural integrity of the building was questioned after the incident. OSHA performed multiple inspections and reported violations during the late 1990s and early 2000s.

### **Site Visit Comments:**

2005

No additional comments.

2015

A site visit was not conducted. No significant changes were observed during a 2015 windshield survey.

## Former East Hampton Bell Company (3 Walnut Avenue)

Site Photograph (circa 2005)

Site Photograph (September 2015)

### General Property Information

**Tax Assessors Code:** 06A/60/2

**Acres:** 1.53

**Owners Name:** Town of East Hampton

**Owners Address:** 20 East High Street  
East Hampton, CT

**Number of Structures:** 0

**Year Structure Built:** 1851 (former manufacturing buildings demolished in 1980s; subsequent remaining 2 structures demolished between 2008 and 2012)

**Current Use:** Vacant, grassy lot

**Historic Use:** Bell Manufacturing

**Total Square Feet:** 0 ft<sup>2</sup>

**Total Basement Area:** 0 ft<sup>2</sup>

#### Ownership/Sale History:

Date	Grantor	Grantee	Volume/Page
09/23/2008	Brookside Industrial Co.	Town of East Hampton	481/202
11/08/2001	Barton, J C Co.	Brookside Industrial	339/518
08/23/1972	Unknown	Barton, J C Co.	110/517

### Environmental Setting/Information

**Establishment Status:** Not Likely

**Prior Environmental Site Assessment:** Phase I ESA, Tighe & Bond, March 2006  
Phase II ESA, Tighe & Bond, May 2006

## Former East Hampton Bell Company (3 Walnut Avenue)

**Topographic Quad Name:** Middle Haddam and Moodus

**Groundwater Class:** GA – Impaired

**Bedrock Material:** Brimfield Schists - gray, rusty weathering, medium to coarse grained, interlayered schists & gneiss.

**Surficial Geologic Material :** Thin Till

**Nearest Surface Water:** Pocotopaug Creek

**Distance to Nearest Surface Water:** >100 feet

**Spills/ Releases:** None reported as of 09/2015

**ASTs/USTs:** None registered with the state as of 09/2015; however, fill pipes and a concrete UST containment vault were formerly visible on the property

### File Search:

2005

No additional information found.

2015

According to town file information, the water tower formerly located on this parcel was removed in October 2008. Subsequent to that time, the site buildings were demolished. During the 2015 Groundwater Quality Assessment, Fuss & O'Neill installed a monitoring well on this parcel near the property boundary along Walnut Avenue. Analytical results from an April 2015 groundwater sample identified trace concentrations of polycyclic aromatic hydrocarbons.

### Site Visit Comments:

2005

No additional comments.

2015

A site visit was not conducted. The 2015 windshield survey confirmed that this parcel is currently a vacant, grassy lot.

## J.C. Barton Machine Shop (11 Skinner Street)

Site Photograph (circa 2005)

Site Photograph (September 2013)

### General Property Information

**Tax Assessors Code:** 02A/49/1-1

**Acres:** 2.24

**Number of Structures:** 2

**Year Structure Built:** 1967

**Total Square Feet:** 30,660 ft<sup>2</sup>

**Total Basement Area:** 0 ft<sup>2</sup>

**Owners Name:** 11 Skinner Street LLC

**Owners Address:** 6900 Wisconsin Avenue Suite 700  
Chevy Chase, MD

**Current Use:** Machine Shop

**Historic Use:** Brookside Industrial complex, office space,  
N.N. Hill Brass company, bell and toy manufacturing

#### Ownership/Sale History:

Date	Grantor	Grantee	Volume/Page
03/01/2007	JCB Real Estate LLC	11 Skinner Street LLC	458/211
11/08/2001	Brookside Industrial Park	JCB Real Estate LLC	339/519
11/08/2001	J.C. Barton Co.	Brookside Industrial Park	339/518
11/16/1973	Belltown Indus. Corp.	J.C. Barton Co.	117/271
06/30/1967	Belltown Indus. Corp.	J.C. Barton Co.	91/427
10/14/60	N.N. Hill Brass Co.	Belltown Indus. Corp.	91/157

### Environmental Setting/Information

**Establishment Status:** Not Likely

**Prior Environmental Site Assessment:** Phase I ESA, EnviroScience Consultants, Inc., June 2001

## **J.C. Barton Machine Shop (11 Skinner Street)**

**Topographic Quad Name:** Middle Haddam

**Groundwater Class:** GA- Impaired

**Bedrock Material:** Brimfield Schists - gray, rusty weathering, medium to coarse grained, interlayered schists & gneiss.

**Surficial Geologic Material :** Thin Till

**Nearest Surface Water:** Pocotopaug Creek

**Distance to Nearest Surface Water:** >100 feet

**Spills/ Releases:** None listed as of 09/2015

**ASTs/USTs:** Three registered USTs are associated with the Site: two 10,000-gallon gasoline tanks (removed in January 1990; and one 10,000-gallon gasoline tank (last used in 2009). Documentation of the removal of this tank were not reviewed. Additional documentation indicates the removal of a potential fourth 10,000-gallon UST in 2001. The Site was entered in CT LUST database in 2010.

### **File Search:**

#### 2005

Sanborn maps indicate the N.N. Hill Brass Company existed in the area of the Site during the early 1900's. The 2001 Phase I Environmental Site Assessment identified four recognized environmental conditions including: a pad mounted transformer, a 10,000-gallon UST (presumably the one last used in 2009), septic tank/floor drains (abandoned), and wastes generated and stored on Site.

#### 2015

Building department files indicate that the Site was considering subdividing the property in 2000. Dwight Barton of J.C. Barton building indicated that the underground storage tanks on Site had been removed. The Site violated the State Health Code and Town regulations concerning their potable water, which they were allegedly supplying to 25-27 Skinner Street. Correspondence between the Town of East Hampton and D'Aquila & Brooks. LLC attempts to settle the water system interconnection and subdivision issue in 2007.

### **Site Visit Comments:**

#### 2005

Ample driveways and parking lots exist on the site. The site is accessible only through Skinner Street (CT-Rte.196).

#### 2015

A site visit was not conducted. No significant changes were observed during a 2015 windshield survey.

## Former Summit Thread (13 Summit Street)

Site Photograph (Circa 2005)

Site Photograph (September 2015)

### General Property Information

**Tax Assessors Code:** 06/62/2A

**Acres:** 2.10

**Number of Structures:** 4

**Year Structure Built:** 1900

**Total Square Feet:** 19,160 ft<sup>2</sup>

**Total Basement Area:** 4,794 ft<sup>2</sup>

**Owners Name:** Mercedes Zee Corporation LLC

**Owners Address:** P.O. Box 242  
East Haddam, CT

**Current Use:** Rental commercial studios & Vacant industrial/commercial space

**Historic Use:** Summit Thread, cotton and silk thread, manufacturer / metal finishing

#### Ownership/Sale History:

Date	Grantor	Grantee	Volume/Page
12/06/2011	Artistic Mill LLC	Mercedes Zee Corp. LLC	519/728
01/14/2002	13 Summit Street Assoc.	Artistic Mill LLC	343/399
09/23/1987	Unknown	13 Summit Street Assoc.	210/757

### Environmental Setting/Information

**Establishment Status:** Likely – Fox Cleaner's (a dry cleaner) was former tenant

**Prior Environmental Site Assessment:** None Found - Town records searched 09/2015

## Former Summit Thread (13 Summit Street)

**Topographic Quad Name:** Middle Haddam and Moodus

**Groundwater Class:** GA – Impaired

**Bedrock Material:** Brimfield Schists - gray, rusty weathering, medium to coarse grained, interlayered schists & gneiss.

**Surficial Geologic Material :** Thin Till

**Nearest Surface Water:** Pocotopaug Creek

**Distance to Nearest Surface Water:** >100 feet

**Spills/ Releases:** None listed as of 09/2015

**ASTs/USTs:** None registered with the state as of 09/2015

### File Search:

2005

A documented spill occurred at the corner of Summit and Watrous outside the property. The Sanborn Maps document the location of Summit Thread Manufacturing dating back to the early 1900's.

2015

Building department files dated 2006 indicate that the Town of East Hampton had requested actions to remove junk cars stored on the property. In 2012 permits were obtained to perform demolition (presumably interior) and lead abatement was performed. Asbestos abatement information was not available. In 2014, the property was eligible for the "village housing overlay zone" to allow residential use on the upper floors.

State files indicate that the Site entered the Property Transfer Program on 01/10/2012. A Form III (discharge, spillage, uncontrolled loss, seepage, filtration of hazardous waste has occurred and has not been fully remediate or environmental conditions are unknown) was submitted for the transfer to Mercedes Zee Corporation, LLC. No other information was reviewed.

### Site Visit Comments:

2005

The primary access road to the property is through Summit Street, although the site could not be accessed through Watrous Street.

2015

A site visit was not conducted. No significant changes were observed during a 2015 windshield survey.

## Former Ghezzi Motors (13 Watrous Street)

Site Photograph (Circa 2005)

Site Photograph (circa 2012)

### General Property Information

**Tax Assessors Code:** 06A/59/12

**Acres:** 1.36

**Number of Structures:** 3

**Year Structure Built:** 1910 (addition approx. 1936)

**Total Square Feet:** 11,518 ft

**Total Basement Area:** 0 ft<sup>2</sup>

**Owners Name:** Town of East Hampton

**Owners Address:** 20 East High Street  
East Hampton, CT

**Current Use:** Vacant industrial space

**Historic Use:** Auto repair, auto-body paint shop, used auto dealership, gas station, manufacturing powerhouse for Summit Thread Company, Artistic Wire Products Company

#### Ownership/Sale History:

Date	Grantor	Grantee	Volume/Page
12/27/2002	Ghezzi/Cartelli	Town of East Hampton	364/134
06/08/1981	Planeta, R Jr.	Axelrod J	155/107
06/23/1969	Planeta Realty	Planeta R Sr.	98/183-187
11/30/1943	Planeta R.	Planeta Realty Corp	63/297

### Environmental Setting/Information

**Establishment Status:** Likely – Auto-body repair

**Prior Environmental Site Assessment:** Phase I ESA, Tighe & Bond, May 2005

Phase II ESA, Tighe & Bond, August 2005

Interim Remedial Action Plan, AECOM, May 2010

## Former Ghezzi Motors (13 Watrous Street)

**Topographic Quad Name:** Middle Haddam and Moodus

**Groundwater Class:** GA – Impaired

**Bedrock Material:** Brimfield Schists - gray, rusty weathering, medium to coarse grained, interlayered schists & gneiss.

**Surficial Geologic Material :** Thin Till

**Nearest Surface Water:** Pocotopaug Creek

**Distance to Nearest Surface Water:** >500 feet

**Spills/ Releases:** None listed as of 09/2015

**ASTs/USTs:** None registered with the state as of 09/2015; however, a gasoline tank was noted on historic Sanborn maps, as well as 3, 300-gallon motor oil ASTs; a 250-gallon and 50-gallon tanks were also noted on the site.

### File Search:

2005

No additional information found.

2015

Building department files indicate that the Site was historically used as a motor vehicle repair and used auto dealership. Documents dated 2006 indicate the Site required to have an environmental audit conducted by a certified hazardous materials manager. Additional 2006 correspondences indicate that the site owner was informed that "junkyards" were not allowed in the Village Center, and included photographs showing old vehicles stored on the property.

Documentation was also reviewed indicating an oil tank was removed in 2006, but correspondence between property owners suggest that the tank actually located at the adjacent parcel (1 Watrous Street). In 2007, Phoenix Redevelopment, LLC (the property owner of 17 Watrous St) was instructed to leave the Site; no additional information was reviewed.

Files reviewed indicated that the site was entered in the voluntary remediation program in 2007 and Tighe & Bond performed testing of oil drain, pans, buckets, drums & tanks, but no additional information was available. Limited soil remediation was conducted in 2010 and a grant from the DECD was awarded in 2014 for the demolition of the building. Groundwater samples collected in 2015 indicated trace concentrations of polycyclic aromatic hydrocarbons in three monitoring wells and a concentration of trichloroethylene above state cleanup standards in one monitoring well.

### Site Visit Comments:

2005

The driveway leading to the property is unpaved and very limited parking is available. In addition to its entrance at Watrous Street, a narrow and unpaved access road leads to the property by Railroad Avenue.

2015

A site visit was not conducted. The 2015 windshield survey confirmed that the site is currently vacant and the exterior of the property is fenced.

FINDS:

Registry ID: 110022665481

Environmental Interest/Information System:

AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

US BROWNFIELDS:

Recipient name:	East Hampton, Town of
Grant type:	Assessment
Property name:	FORMER GONG BELL SITE
Property #:	Not Reported
Parcel size:	.45
Property Description:	The site was occupied by the Gong Bell Manufacturing Company between approximately the late 1800s through the 1960s. The Gong Bell Manufacturing Company manufactured cast-iron and wooden toys. Painting and merchandise storage may also have occurred at the site. A sheet I manufacturing company BSR Sheet I Manufacturing also occupied the site during the 1970s. The former building had been vacant since approximately 1980, and was used by the East Hampton Fire Department for controlled fire burning exercises during the 1990s. The former building was demolished in approximately 1998, and with the exception of a small shed, the site is currently vacant.

#### US BROWNFIELDS:

Recipient name:	East Hampton, Town of
Grant type:	Cleanup
Property name:	13 WATROUS STREET
Property #:	Map 06A Block 59 Lot 12
Parcel size:	1.36
Property Description:	The site is located at 13 Watrous Street in East Hampton, Connecticut. The site is comprised of approximately 1.36 acres. Site contains an industrial complex with concrete floors, a mixture of concrete and brick walls, and steel trusses, building area is 14,017 ft2. The building was originally built in 1910 to serve as a coal fired boiler powerhouse for the Summit Thread Company. The northern portion of the building was used a coal pocket for coal storage. The southern section of the building was added after 1936. In 1943, the building changed ownership to the Artistic Wire Products Company. The specific manufacturing activities in the northern portion of the site is unknown. The southern portion of the building was used as storage. The property was then opeated by an auto body and auto repair shop. The auto operation went out of business, leaving behind approximately 50 junk cars and automobile parts strewn throughout the property. The town of East Hampton acquired the property through foreclosure by sale. The site is fenced with temporary snow fencing.

### ▼ BROWNFIELDS: A Listing of Brownfields Sites

#### US BROWNFIELDS:

Recipient name:	East Hampton, Town of
Grant type:	Assessment
Property name:	25 SKINNER STREET, BROOKSIDE IND. COMPLEX LOT #2
Property #:	Map 2A, Block 49, Lot 1-3
Parcel size:	1.85
Property Description:	<p>The site is 1.85 acres in size, is zoned industrial, and includes a 42,524 square foot site structure. There is no basement and the site structure is heated with propane as of 2013 (formerly heating oil). The northern approximate one-third of the building is a two story, cinder block structure occupied by a non-profit organization involved in childrens arts programs Epoch Arts. The remainder of the site structure is a three story former industrial building, a portion of which is occupied by a cardboard distributor ASI Alternative Solutions International. The remainder of the building is unoccupied or used for light storage by the current site occupants. No manufacturing is currently done by any site occupant. According to the site owner, a powder coating company APC American Powder Coating previously occupied a portion of the building but ceased operations and moved out during 2007. The site was developed in approximately 1900 and was occupied by the N.N Hill Bell Factory. From the early 1900s through the 1960s, the site manufactured toys and bells. Past site uses identified at the site using historical aerial photographs and Sanborn mapping are industrial from 1903 to the present. The historic industrial activities included brass manufacturing, storage, powder operations, rolling, machining, finishing, and foundry operations. Since approximately the 1960s, the site has been occupied by various commercial and light industrial operations, including Pressure Pak. Pressure Pak manufactured Freon cylinders between approximately 1971 to approximately 1984, and metal waste was generated from the stamping of the cylinders.</p>

Property name:	25 SKINNER STREET, BROOKSIDE IND. COMPLEX LOT #2
Property #:	Map 2A, Block 49, Lot 1-3
Parcel size:	1.85
Property Description:	<p>The site is 1.85 acres in size, is zoned industrial, and includes a 42,524 square foot site structure. There is no basement and the site structure is heated with propane as of 2013 (formerly heating oil). The northern approximate one-third of the building is a two story, cinder block structure occupied by a non-profit organization involved in childrens arts programs Epoch Arts. The remainder of the site structure is a three story former industrial building, a portion of which is occupied by a cardboard distributor ASI Alternative Solutions International. The remainder of the building is unoccupied or used for light storage by the current site occupants. No manufacturing is currently done by any site occupant. According to the site owner, a powder coating company APC American Powder Coating previously occupied a portion of the building but ceased operations and moved out during 2007. The site was developed in approximately 1900 and was occupied by the N.N Hill Bell Factory. From the early 1900s through the 1960s, the site manufactured toys and bells. Past site uses identified at the site using historical aerial photographs and Sanborn mapping are industrial from 1903 to the present. The</p>

historic industrial activities included brass manufacturing, storage, powder operations, rolling, machining, finishing, and foundry operations. Since approximately the 1960s, the site has been occupied by various commercial and light industrial operations, including Pressure Pak. Pressure Pak manufactured Freon cylinders between approximately 1971 to approximately 1984, and metal waste was generated from the stamping of the cylinders.

Property Transfer Forms: Form III (DEP-PERD-PTP-203) when a discharge, spillage, uncontrolled loss, seepage or filtration of hazardous waste has occurred at the parcel that has not been fully remediated or the environmental conditions at the parcel are unknown. The person signing the Form III certification agrees to investigate and remediate the site in accordance with the remediation standards. The statute does not require completion of remediation before the parcel is transferred. Any person submitting a Form III shall simultaneously submit a completed Environmental Condition Assessment Form (ECAAF)(DEP-PERD-PTP-200).

### ▼ ENF: Enforcement Case Listing

ENFORCEMENT:

Enforcement Action ID:	NOVUST-LF14-0001
Enforcement Type Code:	Notice Of Violation
Program Id:	Not Reported
Enforcement Action Date:	03/10/2014
Penalty Amount:	\$0.00
Sep Amt:	Not Reported
Bureau Name:	Materials Management & Compliance Assurance
Program:	Underground Storage Tank Enforcement
Status:	Active
Date of Discovery:	03/10/2014
Resolution Date:	Not Reported
Resolution Type:	None
Staff:	Wilde Philip
ENF Action Comment:	Cathodic protection systems require annual testing to ensure that a structure to soil test voltage reading of at least minus 0.85 volts is maintained.. Documentation showing that the monitors for tanks impressed current systems have been inspected every 30 days was not available.. Inventory volume measurements for inputs, withdrawals, and remaining amounts are not recorded each operating day and reconciled weekly as required.. The owner or operator has failed to perform, or has performed inadequately, the requisite monthly visual inspections at their UST facility or facilities.. The owner or operator has failed to submit the requisite annual UST facility notification and/or the requisite annual UST facility fee(s).. The tanks cathodic protection documentation not maintained.. The tanks cathodic protection was not operational, therefore, corrosion protection must be repaired or system permanently closed.. The tanks cathodic protection was not tested within six (6) months of in...

### J. C. BARTON CO., 11 SKINNER ST EAST HAMPTON, CT 064241747 (Continued)

Pipe Material:	Other (Specify)
Pipe Mode Description:	Not Reported
Spill Installed:	Not Reported
Overfill Installed:	Not Reported
Tank Latitude:	41.572955
Tank Longitude:	-72.502783

Tank ID:	B1
Compartment ID:	a
Tank Status:	Permanently Closed
Tank Material:	Asphalt Coated or Bare Steel
Secondary Material:	Not Reported
Capacity:	10000
Substance:	Gasoline
Date Installed:	01/01/1950
Date Last Used:	01/01/1990
Closure Status:	Tank was Removed From Ground
Pipe Material:	Bare Steel
Pipe Mode Description:	Not Reported
Spill Installed:	Not Reported
Overfill Installed:	Not Reported
Tank Latitude:	Not Reported
Tank Longitude:	Not Reported

Tank ID:	C1
Compartment ID:	a
Tank Status:	Permanently Closed
Tank Material:	Asphalt Coated or Bare Steel
Secondary Material:	Not Reported
Capacity:	10000
Substance:	Gasoline
Date Installed:	08/01/1979
Date Last Used:	01/01/1990
Closure Status:	Tank was Removed From Ground
Pipe Material:	Other (Specify)
Pipe Mode Description:	Not Reported
Spill Installed:	Not Reported
Overfill Installed:	Not Reported
Tank Latitude:	Not Reported
Tank Longitude:	Not Reported

## DATABASE DESCRIPTIONS

### **CPCS:** Contaminated or Potentially Contaminated Sites

Source:

Telephone:

Date of Government Version: 06/15/2015

Database Release Frequency: Quarterly

### **LEAD:** Lead Inspection Database

Source:

Telephone:

Date of Government Version: 03/26/2014

Database Release Frequency: Varies

### **RCRA-CESQG:** RCRA - Conditionally Exempt Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

Source: Environmental Protection Agency

Telephone: 703-308-0035

Date of Government Version: 03/10/2015

Database Release Frequency: Varies

### **RCRA-NLR:** RCRA - Non Generators / No Longer Regulated

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

Source: Environmental Protection Agency

Telephone: 703-308-0035

Date of Government Version: 03/10/2015

Database Release Frequency: Varies

### **ERNS:** Emergency Response Notification System

Emergency Response Notification System. ERNS records and stores information on reported releases of oil and hazardous substances.

Source: National Response Center, United States Coast Guard

Telephone: 202-267-2180

Date of Government Version: 03/30/2015

Database Release Frequency: Annually

### **BROWNFIELDS:** A Listing of Brownfields Sites

Included in the listing are brownfields properties addresses by Cooperative Agreement Recipients and brownfields properties addressed by Targeted Brownfields Assessments. Targeted Brownfields Assessments-EPA's Targeted Brownfields Assessments (TBA) program is designed to help states, tribes, and municipalities--especially those without EPA Brownfields Assessment Demonstration Pilots--minimize the uncertainties of contamination often associated with brownfields. Under the TBA program, EPA provides funding and/or technical assistance for environmental assessments at brownfields sites throughout the country. Targeted Brownfields Assessments supplement and work with other efforts under EPA's Brownfields Initiative to promote cleanup and redevelopment of brownfields. Cooperative Agreement Recipients-States, political subdivisions, territories, and Indian tribes become Brownfields Cleanup Revolving Loan Fund (BCRLF) cooperative agreement recipients when they enter into BCRLF cooperative agreements with the U.S. EPA. EPA selects BCRLF cooperative agreement recipients based on a proposal and application process. BCRLF cooperative agreement recipients must use EPA funds provided through BCRLF cooperative agreement for specified brownfields-related cleanup activities.

Telephone: 202-566-2777

Date of Government Version: 06/22/2015

Database Release Frequency: Semi-Annually

### **PRP:** Potentially Responsible Parties

A listing of verified Potentially Responsible Parties

Source: EPA

Telephone: 202-564-6064

Date of Government Version: 10/25/2013

Database Release Frequency: Quarterly

### **FINDS:** Facility Index System/Facility Registry System

Facility Index System. FINDS contains both facility information and 'pointers' to other sources that contain more detail. EDR includes the following FINDS databases in this report: PCS (Permit Compliance System), AIRS (Aerometric Information Retrieval System), DOCKET (Enforcement Docket used to manage and track information on civil judicial enforcement cases for all environmental statutes), FURS (Federal Underground Injection Control), C-DOCKET (Criminal Docket System used to track criminal enforcement actions for all environmental statutes), FFIS (Federal Facilities Information System), STATE (State Environmental Laws and Statutes), and PADS (PCB Activity Data System).

Date of Government Version: 01/18/2015

## DATABASE DESCRIPTIONS

Telephone:

Database Release Frequency: Quarterly

**SDADB:** Site Discovery and Assessment Database

All sites reported to Permitting, Enforcement, and Remediation Division where it is suspected that hazardous waste may have been disposed or sites that are eligible for listing on the State Inventory of Hazardous Waste Disposal Sites.

Source: Department of Environmental Protection  
Telephone: 860-424-3721

Date of Government Version: 04/23/2010  
Database Release Frequency: No Update Planned

**LUST:** Leaking Underground Storage Tank List

Leaking Underground Storage Tank Incident Reports. LUST records contain an inventory of reported leaking underground storage tank incidents. Not all states maintain these records, and the information stored varies by state.

Source: Department of Environmental Protection  
Telephone: 860-424-3376

Date of Government Version: 07/24/2015  
Database Release Frequency: Semi-Annually

**UST:** Underground Storage Tank Data

Registered Underground Storage Tanks. UST's are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA) and must be registered with the state department responsible for administering the UST program. Available information varies by state program.

Source: Department of Environmental Protection  
Telephone: 860-424-3376

Date of Government Version: 05/26/2015  
Database Release Frequency: Semi-Annually

**MANIFEST:** Facility and Manifest Data

Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a TSD facility.

Source: Department of Environmental Conservation  
Telephone: 518-402-8651

Date of Government Version: 08/01/2015  
Database Release Frequency: Annually

**MANIFEST:** Manifest information

Hazardous waste manifest information

Source: Department of Environmental Management  
Telephone: 401-222-2797

Date of Government Version: 12/31/2013  
Database Release Frequency: Annually

**MANIFEST:** Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Source: Department of Environmental Protection  
Telephone: 860-424-3375

Date of Government Version: 07/30/2013  
Database Release Frequency: No Update Planned

**SPILLS:** Oil & Chemical Spill Database

Oil and Chemical Spill Data.

Source: Department of Environmental Protection  
Telephone: 860-424-3024

Date of Government Version: 07/28/2015  
Database Release Frequency: Semi-Annually

**AIRS (AFS):** Aerometric Information Retrieval System Facility Subsystem (AFS)

General plant level, plant air program, air program pollutant and plant action data.

Source: EPA  
Telephone: 800-367-1044

Date of Government Version: 07/22/2015  
Database Release Frequency: Annually

**OSHA:** Occupational Safety and Health Administration

Specific inspection, violation and fatality/catastrophe information regarding inspections of interest.

Source: Department of Labor  
Telephone: 202-693-1700

Date of Government Version: 12/31/2013  
Database Release Frequency: Annually

**ENF:** Enforcement Case Listing

The types of enforcement actions included are administrative consent orders, final unilateral orders and final dispositions of civil cases through the Attorney General's Office.

Source: Department of Environmental Protection  
Telephone: 860-424-3265

Date of Government Version: 07/24/2015  
Database Release Frequency: Varies

## DATABASE DESCRIPTIONS

### **NPDES:** Wastewater Permit Listing

A listing of permits issued by the DEP.

Source: Department of Environmental Protection

Telephone: 860-424-3832

Date of Government Version: 08/07/2015

Database Release Frequency: Varies

### **PROPERTY:** Property Transfer Filings

A listing of sites that meet the definition of a hazardous waste establishment. They can be generators, dry cleaners, furniture strippers, etc. These sites have been sold to another owner.

Source: Department of Environmental Protection

Telephone: 860-424-3789

Date of Government Version: 05/19/2015

Database Release Frequency: Semi-Annually

### **EDR GAS STATIONS:** EDR Exclusive Historic Gas Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc.

Source: EDR, Inc.

Telephone:

Date of Government Version: 02/20/2007

Database Release Frequency: Varies

### **EDR DRY CLEANERS:** EDR Exclusive Historic Dry Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc.

Source: EDR, Inc.

Date of Government Version: 02/20/2007

Database Release Frequency: Varies

## DISCLAIMER, COPYRIGHT AND TRADEMARK NOTICE

This is The EDR OnDemand Report. Through its continuing emphasis in online technological advancements, EDR has developed the OnDemand system, which enables EDRs customers to search EDRs databases and generate reports based on database records selected by the Client. Client acknowledges that Client has generated this Report by marking those records which Client wishes to include in the final Report. Client has not requested that EDR provide any advice, recommendation or guidance on which records to include in the final Report, and EDR had provided no such advice, recommendation or guidance. The decision of which records to include in the final Report is solely that of Client. EDR has done no checking or quality control of any of the records included in this Report or of this Report itself.

This report contains information obtained from a variety of public and other sources reasonably available to Environmental Data Resources, Inc. It cannot be concluded from this Report that coverage information for the target and surrounding properties does not exist from other sources. **NO WARRANTY EXPRESSED OR IMPLIED, IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT. ENVIRONMENTAL DATA RESOURCES, INC. SPECIFICALLY DISCLAIMS THE MAKING OF ANY SUCH WARRANTIES, INCLUDING WITHOUT LIMITATION, MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE OR PURPOSE. ALL RISK IS ASSUMED BY THE USER. IN NO EVENT SHALL ENVIRONMENTAL DATA RESOURCES, INC. BE LIABLE TO ANYONE, WHETHER ARISING OUT OF ERRORS OR OMISSIONS, NEGLIGENCE, ACCIDENT OR ANY OTHER CAUSE, FOR ANY LOSS OR DAMAGE, INCLUDING, WITHOUT LIMITATION, SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR EXEMPLARY DAMAGES. ANY LIABILITY ON THE PART OF ENVIRONMENTAL DATA RESOURCES, INC. IS STRICTLY LIMITED TO A REFUND OF THE AMOUNT PAID FOR THIS REPORT.**

Purchaser accepts this report "AS IS". Any analyses, estimates, ratings, or risk codes provided in this report are provided for illustrative purposes only, and are not intended to provide, nor should they be interpreted as providing any facts regarding, or prediction or forecast of, any environmental risk for any property. Only a Phase I Environmental Site Assessment performed by an environmental professional can produce information regarding the environmental risk for any property. Additionally, the information provided in this Report is not to be construed as legal advice.
