**Re: DEEP License#: 201907047-SDF
153 Middle Haddam Road
Map 02/ Block 18/ Lot 24-1**

Dear Ms. Giordano,

We have received communications from the Connecticut Department of Energy and Environmental Protection regarding a license to modify a dock at your property at 153 Middle Haddam Road.

I wanted to take this opportunity to let you know that although DEEP has complete oversight of all work below the Coastal Jurisdiction Line, if there is any work pertaining to the dock rehabilitation uphill of the Coastal Jurisdiction Line, it will require a permit from the East Hampton Inland Wetlands and Watercourses Agency. If any electrical trenching, footing installations, or any other work requiring ground disturbance will take place, please let us know so that we may help you through the permitting requirements and process.

If you should have any questions, please feel free to reach out to my office with any questions.

Sincerely,

Jeremy DeCarli
