Good Morning,

I am verifying your description for your proposed project driveway:

The current driveway is crushed stone and the plan is to pave driveway with asphalt. Driveway dimension will remain the same.

The Commission reviewed your application and continued it to the next regularly scheduled meeting December 20, 2023. A few items they discussed and would like addressed:

A written description of the current driveway – dirt, stone, etc

A written description of what is proposed – asphalt?

Erosion and sedimentation controls during construction - what kind and where.

How will you control water runoff from the driveway?

The Commission would like you or a representative to discuss at the next meeting. The meeting is in person or via ZOOM. Typically some Commission Members are in person and the rest are on ZOOM.

I have provided a survey in your property file that may help.

Thank you and have a great day.
