

Hello Jeremy,

I support the conversion of 9 Middle Haddam Road, Cobalt, from Residential to Commercial. I was a lifelong friend of the McShea family who previously resided at this address, and I know that they would endorse a veterinary hospital on the property. They always had a menagerie of cats and dogs, and even a horse at one point. Also, as this is an historic building, the Gustavson's will preserve the house and barn while bringing much-needed business to Cobalt. The house has ample space for parking away from Route 151, so the village charm of Cobalt would be maintained.

Thank you,

Bonnie Becker
