

# CONTOUR MAP East Hampton, CT (North)

**EXPLANATION**

For unknown reasons, data was collected unevenly in some areas. Contour lines are used to denote elevation above sea level. Information from a statewide collection of ground elevation data for the year 2000. This information is only intended for general information and is not intended for exact determinations of elevation where a survey is normally required, or for detailed engineering purposes. Contour lines that cross streams, flowing through them, are not necessarily 20 feet higher than the stream bed. Contour lines that cross streams, flowing through them, are not necessarily 20 feet higher than the stream bed. Contour lines that cross streams, flowing through them, are not necessarily 20 feet higher than the stream bed. Contour lines that cross streams, flowing through them, are not necessarily 20 feet higher than the stream bed.

**DATA SOURCES**

BASE MAP DATA - All data is based on 1:24,000 scale data on the Connecticut 2000 CLEAR ground elevation data. The data was collected by the Connecticut Department of Transportation (CTDOT) and is based on the 2000 National Wetlands Inventory (NWI) data. The data was collected by the Connecticut Department of Transportation (CTDOT) and is based on the 2000 National Wetlands Inventory (NWI) data.

MAPS AND DIGITAL DATA - Year 2000 CT DOT data. The data was collected by the Connecticut Department of Transportation (CTDOT) and is based on the 2000 National Wetlands Inventory (NWI) data.

CONTOUR DATA - Derived from a statewide Digital Elevation Model (DEM) surface based on the 2000 National Wetlands Inventory (NWI) data.
