

**CONTOUR MAP**  
**East Hampton, CT**  
**(North)**

**EXPLANATION**

Contour lines are used to represent elevation. They are based on information from a cadastral collection of ground elevations. Contour lines are drawn at 2-foot intervals. The contour interval is 2 feet. Contour lines are not intended for exact determinations of elevation where steep slopes are represented by closely spaced contour lines. Contour lines are not intended for exact determinations of elevation where steep slopes are represented by widely spaced contour lines. Contour lines are not intended for exact determinations of elevation where steep slopes are represented by widely spaced contour lines. Contour lines are not intended for exact determinations of elevation where steep slopes are represented by widely spaced contour lines.
