Project Address:
1 West Street
East Hampton CT. 06424

Wetlands Application Description Of Work:

Demo an existing 1-story and second story deck to make way for a two-story enclosed structure per attached plan. Project consist of constructing a frost wall foundation and footing system to support the new structure. Construct a four-season structure to replace the two-season existing structure consisting of wood frame traditional construction 5b. All silt fence will be installed per the attached drawing and because of the proximity to lake drive a construction pad will be put in place during construction to eliminate unnecessary disturbance. All lawn and landscaping will be restored at the end of construction as part of this project.
