

Save the Middle Haddam Historic District -
Say "No" to 8-Lot Subdivision on Long Hill
Road

RECEIVED
5/4/2021
East Hampton
Land Use Office

To: Members of East Hampton's Planning and Zoning Commission

We, the undersigned, oppose the application by Long Hill Estates, LLC, to create an 8-lot subdivision at the gateway to the Middle Haddam Historic District. The District is significant for its concentration of 18th-19th architecture signifying the first 150 years of our nation's maritime history and the scale of this housing development within its boundaries threatens to dilute its narrative. It also negatively impacts wetlands, a watercourse and spring and will destroy the wooded buffer between the commercial noise of Route 66 and the quiet rural village of Middle Haddam. Please preserve our heritage and uphold East Hampton's Plan of Conservation and Development that prioritizes the preservation and protection of our natural and historic resources, by opposing Application PZC-21-009.

Comments: I strongly oppose the development of the Long Hill Road property.

First and foremost the proximity to the Middle Haddam Historic District is of concern. Traffic impact on Long Hill Road is a true safety concern, as it affects the road itself and the safety of the residents; especially the young children, and walkers. The Mine Brook runs under Long Hill Road, the conditions of that culvert could be jeopardized. Long Hill Road is an unfortunate through way to Rt. 151. The additional traffic impact would be huge for both ends of Long Hill Road.

Comments: Once again, a developer wants to destroy the historical qualities and the natural beauty of this small, quaint section of town.

As usual, this developer cares nothing for the people or the impact and heartache he is causing anyone. You would never know that he grew up among these people. Shame on him.

Comments: It concerns me that developers can withdraw proposals and resubmit new ones this close to a hearing. How easy for the developer to do and how incredibly hard for anyone who opposes to reorganize on such short notice. It's absolutely unfair to allow this application to even be considered at this hearing on April the 7th.

-
91. Name: Janine Shumbo-Jenks (JJenks13@yahoo.com) on 2021-04-09 23:21:14
Comments: My husband and I wanted to move to Middle Haddam because of the old historical charm. We knew moving to this area there were restrictions because of it being zoned for a "Historical District". For example, we don't have mailboxes. If a simple thing like a mailbox isn't allowed because it takes away from the look of our area, just imagine changing the zone. What kind of things will start being allowed after that? We love the way it is and once turning down Long Hill Road you immediately step away from the over development of East Hampton. It would be an absolute disgrace if the town allows anyone to change the zoning.

Comments: It su.ply doesn't matter what thus developer wants to "build" but that land should forever remain what it is and what it is "zoned" for. He, just like anyone buy property should have done his due diligence before the purchase. Instead, he thinking that he and his finacial wealth will simply "buy" his way in to what will just put more money in his already deep pockets. This is what is wrong with people. Please leave my "childhood home address alone". I may not live there now but it still is something I will fight strongly for since 5 houseing on Long Hill and one on Kealey Pond are my family members!

Comments: Please respect the Plan of Conservation and Development and protect the distinct character of the Middle Haddam Historic District, as well as the equally important natural resources, and reject Application PZC-21-009. I urge the P&Z Commission and the Developer alike to show sensitivity, creativity and foresight on this critical piece of land. Development in harmony with the landscape and community is not only possible, it will provide lasting benefits for generations to come.
-
226. Name: Hannah Ardenski (empowersound@gmail.com) on 2021-04-15 14:06:04
Comments: We really do not need any more developments built. There are so many houses/buildings to buy and land preservation is essential. Our trees give us air to breathe and clean water is necessary for human survival.
