MEDIA RELEASE

FOR IMMEDIATE RELEASE

East Hampton COVID-19 Update as of October 29, 2021

TOWN REMAINS AT ORANGE ALERT LEVEL

East Hampton, CT, October 29, 2021 – East Hampton’s COVID case rates nudged slightly lower in the most recent figures from CT DPH although the Town remains at the “Orange Alert” level under the State’s COVID Response Framework. In the last two weeks, East Hampton has seen about 1.4 new daily cases equating to about 11.2 cases per 100,000 population. Middlesex County maintained its Substantial Transmission Rate status as determined by the Centers for Disease Control (CDC), but the rate dropped significantly. With the exception of Windham County, the State is seeing moderate to substantial new COVID transmission rates. Middlesex County had an overall case rate of 57.87 new cases per 100,000 population over the seven day period ending October 27, or 94 actual cases. As the region improves, residents and visitors are still strongly advised to protect themselves and others by using masks, physical separation when possible and by getting vaccinated to continue the improving trend.

All eligible residents are encouraged to become vaccinated as the most important defense against illness and hospitalization from COVID-19. As of October 28, DPH information shows that 69.52, or about 8,936, of the Town’s residents have received at least the first dose of the vaccines. The data further shows that about 65.7% of the Town’s residents are fully vaccinated, having completed all shots in the vaccine series. As of now, about 15% of the Town population is not eligible for vaccination, so it is important that all who are able get the shot. In accordance with decisions made by the FDA and CDC, COVID-19 Vaccine Providers in Connecticut, including Chatham Health District, are providing both first dose shots and approved supplemental or booster doses. Certain individuals who received Pfizer or Moderna vaccinations are eligible for boosters and all persons who received J&J vaccinations are recommended for a booster. Follow the District on Facebook or check its website (www.chathamhealth.org) periodically to learn more about vaccine availability and vaccine clinics. To learn more about other options for vaccine providers, visit: https://portal.ct.gov/Coronavirus/COVID-19-Vaccination-Scheduling-Options.

Also, masks remain an important factor in protecting the community and everyone is safest wearing a mask or face covering when close to others indoors. In order to help protect those that must enter Town government buildings to work or to conduct business, masks continue to be required of all
persons entering Town government facilities, including schools, regardless of vaccination status. Additionally, the Town of East Hampton, the State of Connecticut and the Chatham Health District strongly encourage everyone to wear a mask when they are indoors at any public place. Individual businesses are encouraged to adopt their own policies to require the wearing of masks.
