TOWN REMAINS AT ORANGE ALERT LEVEL

East Hampton, CT, November 12, 2021 – East Hampton’s COVID case rates increased this week in the most recent figures from CT DPH and the Town remains at the “Orange Alert” level under the State’s COVID Response Framework. In the last two weeks, East Hampton has seen just about 1.7 new daily cases equating to about 13.4 cases per 100,000 population. Middlesex County continued at the Centers for Disease Control’s (CDC’s) Substantial Transmission Rate status with an overall case rate of 78.18 new cases per 100,000 population over the seven day period ending November 9, or 127 actual cases. That is a 40% increase in the weekly case rate over last week’s figure. Residents and visitors are still strongly advised to protect themselves and others by using masks, physical separation when possible and by getting vaccinated.

All eligible residents are encouraged to become vaccinated as the most important defense against illness and hospitalization from COVID-19. As of November 11, DPH information shows that about 70.5%, or about 9,068, of the Town’s residents have received at least the first dose of the vaccines and that over 66% of the Town’s residents are fully vaccinated, having completed all shots in the vaccine series. All residents are encouraged to complete their initial vaccination series and to get supplemental or booster shots when appropriate. As of now, about 6% of the Town’s population (children under 5) is not eligible for vaccination. In accordance with the recent eligibility decisions made by the FDA and CDC, COVID-19 Vaccine Providers in Connecticut, including Chatham Health District, are providing both first dose shots and approved supplemental or booster doses for all approved ages. Chatham Health District has partnered to be able to provide Pfizer vaccinations to interested persons and is able to provide all brands of the vaccine. Follow the [District on Facebook](#) or check its website (www.chathamhealth.org) periodically to learn more about vaccine availability and vaccine clinics. To learn more about other options for vaccine providers, visit: <https://portal.ct.gov/Coronavirus/COVID-19-Vaccination-Scheduling-Options>.

Also, masks remain an important factor in protecting the community and everyone is safest wearing a mask or face covering when close to others indoors. However, as the situation improved and slowly trended toward fewer infections, the requirement for masks in Town Hall has been lifted. In accordance with State protocol, vaccinated persons are not required to wear a

mask, but unvaccinated individuals must wear a mask. As always, masks are welcome for anyone who wishes to wear one. Currently, the mask requirement remains in place at the Library and Senior Center based on the populations served at those locations. Pursuant to State DPH directives, masks are still required at schools and health facilities. Individual businesses are encouraged to adopt their own policies regarding the wearing of masks.

For the most current updates and recommendations regarding COVID-19, visit [ct.gov/coronavirus](https://portal.ct.gov/coronavirus). For general questions, call 2-1-1. For information on Town services, monitor the [Town's website](#) and social media.
